

Hydropower Sustainability Forum, Oslo 4-5 September 2017

Dialogue on Sustainable Hydropower Designs and Operation

David A. Wright

Dialogue on Sustainable Hydropower Designs and Operation

- Do proper basin-wide planning..... Don't just "skim the cream"

Dialogue on Sustainable Hydropower Designs and Operation

- Engineering Design and Environmental Impact Assessment and Mitigation should go “Hand-in-Hand”

Dialogue on Sustainable Hydropower Designs and Operation

- Operation and Maintenance – Empowerment of people to take decisions themselves and be proud of their power plant

Dialogue on Sustainable Hydropower Designs and Operation

TAKEHOME:

- Do proper basin-wide planning..... Don't just "skim the cream"
- Engineering Design and Environmental Impact Assessment and Mitigation should go "Hand-in-Hand"
- Operation and Maintenance – Empowerment of people to take decisions themselves and be proud of their power plant
